

# Ajax

## GET请求

```
$.ajax({
  url: "http://116.62.118.175/api/job/list",
  type: "get",
  data: {
    pageNum: 1,
    pageSize: 2
  },
  dataType: "json",
  contentType: 'application/x-www-form-urlencoded',
  success: function (result) {
    console.log(result)
  },
  error: function (error) {
    console.log(error)
  }
})
```

## POST请求

### form表单提交

```
$.ajax({
  url: "http://116.62.118.175/api/job/update",
  type: "post",
  data: {
    id: 3671,
    exam: "哈哈"
  },
  dataType: "json",
  contentType: 'application/x-www-form-urlencoded',
  success: function (result) {
    console.log(result)
  },
  error: function (error) {
    console.log(error)
  }
})
```

### json提交

```
$.ajax({
  url: "http://116.62.118.175/api/job/update",
  type: "post",
  data: JSON.stringify({
```

```
        id: 3671,
        exam: "哈哈哈哈哈"
    }
  },
  dataType: "json",
  contentType: 'application/json',
  success: function (result) {
    console.log(result)
  },
  error: function (error) {
    console.log(error)
  }
})
```

## fetch

### GET请求

```
fetch('http://116.62.118.175/api/job/list?pageNum=1&pageSize=2', {
  method: 'GET'
}).then(response => {
  return response.json();
}).then(data => {
  console.log("get.data:", data);
}).catch(error => {
  console.log("get.error:", error.message);
}).finally(() => {
  console.log("get.finally");
})
```

### POST请求

#### form表单提交

```
fetch('http://116.62.118.175/api/job/update', {
  method: 'POST',
  headers: {
    'Content-Type': 'application/x-www-form-urlencoded'
  },
  body: new URLSearchParams({
    id: 3671,
    exam: "3年以上工作经验"
  })
}).then(response => {
  return response.json();
}).then(data => {
  console.log("post.data:", data);
}).catch(error => {
  console.log("post.error:", error.message);
}).finally(() => {
  console.log("post.finally");
})
```

```
        console.log("post.finally");
    })
}
```

## json提交

```
fetch('http://116.62.118.175/api/job/update',{
  method: 'POST',
  headers:{
    'Content-Type': 'application/json'
  },
  body: JSON.stringify({
    id: 3671,
    exam: "不要"
  })
}).then(response⇒{
  return response.json();
}).then(data ⇒{
  console.log("post.data:",data);
}).catch(error ⇒{
  console.log("post.error:",error.message);
}).finally(()⇒{
  console.log("post.finally");
})
```

## axios

### GET请求

```
axios.get('http://116.62.118.175/api/job/list',{
  params: {
    pageNum: 1,
    pageSize: 2
  }
}).then(response ⇒ {
  console.log('data:',response.data);
}).catch(error ⇒ {
  console.log('error:',error);
}).finally(() ⇒{
  console.log('finally');
})
```

### POST请求

#### json提交

axios默认post用json提交

```
data = {id: 3670,exam: '测试'};

axios.post('http://116.62.118.175/api/job/update_json',data).then(response ⇒ {
```

```
        console.log('data:', response.data);
    }).catch(error => {
        console.log('error:', error);
    }).finally(() =>{
        console.log('finally');
    })
}
```

## form表单提交

```
data = {id: 3670, exam: '测试'};
axios.post('http://116.62.118.175/api/job/update', data, {
    headers: {
        'Content-Type': 'application/x-www-form-urlencoded'
    }
}).then(response => {
    console.log('data:', response.data);
}).catch(error => {
    console.log('error:', error);
}).finally(() =>{
    console.log('finally');
})
```
